SUMMARY

I am a Software Engineering student with a strong foundation in full-stack web development. My experience includes internships focused on building high-performance applications using the MERN stack. I am passionate about creating scalable solutions and continuously improving my technical skills. I am eager to contribute to innovative projects and work collaboratively in a fast-paced environment

EXPERIENCE

MERN Full-Stack Intern

Euphoria GenX (Certified)   07/2023 - 12/2023   Kolkata

Internship focusing on MERN stack development

- CRUD operations using MERN stack with robust backend validation
- Ensured type-safe APIs via schema-based data validation and parsing
- Used Express middleware for request validation across all operations
- Created reusable validation schemas for better scalability and fewer bugs
- Implemented custom error handling for clean API responses and improved UX

EDUCATION

Bachelor's of Computer Application (MAKAUTH)

Techno International College of Technology (CGPA 8.09)

07/2020 - 07/2023   Basirhat, West Bengal

Higher Secondary (WBCHSE)

Basirhat High School (73%)

01/2018 - 05/2020   Basirhat, West Bengal

INTERESTS

💎 Building Websites   💎 Learning Technology

LANGUAGES

English   Proficient   ●●●●○

Hindi   Proficient   ●●●●○

SKILLS

React js   MongoDB   Express.js   Node.js

JWT   REST   Render   Vercel   Middleware

HTML   CSS   JavaScript   SQL   JSON

GitHub   Responsive Web   Tailwind

Bootstrap   C++   Java   Python

PROJECTS

Food Delivery Web Application

https://food-latest-frontend.onrender.com/

Web Application utilizing MERN Stack

- Designed and developed a full-featured E-com platform using the MERN stack
- Implemented user authentication, course creation and enrollment
- Integrated secure JWT-based login, RESTful APIs, and responsive UI/UX design
- Ensured real-time updates and optimized performance across devices

Advanced CRUD App

Using MERN Stack

- Implemented Advanced CRUD Operations using MongoDB , Express.js , React , and Node.js with robust backend validation.
- Schema-based data validation and parsing , ensuring type-safe API communication and preventing malformed data.
- Integrated Express middleware to handle request validation for create , read , update , and delete operations.
- Built reusable, scalable validation schemas, enhancing maintainability and reducing bugs.
- Developed custom error handling logic for clean API responses and improved user experience.
